

Tributary Point

12195 Tributary Point Drive • Gold River, CA 95670

“Sometimes smaller can be better. This small 12,000 sf retail project proved to be as financially successful as many of my larger projects. This was the last parcel available to develop in Gold River so we were fortunate to get it. We put a lot of pride, money and effort into what is really a strip retail center. This is at the entrance to the community we live and work in so there was no doubt we would build a superior product.”
