1300 S Street • Sacramento, CA 95811

“In the early 2000’s, Sacramento did not understand what ‘loft living’ was all about. We had no lofts whatsoever. With this project, we totally immersed ourselves in all aspects of loft design and the living experience. What emerged was a very special loft project that to this day stands as possibly our most stunning modern design. It opened people’s eye’s to a new way of living.”
