

## The Blue Cue

2730 J Street • Sacramento, CA 95816

“I have always said that there is nothing wrong with copying a great idea! One of the great things about traveling is collecting cool ideas that can be translated to our home town of Sacramento . This was the case with the Blue Cue, an upscale billiards, bar and restaurant concept that partner Randy Paragary and I built in 1997. I spent many a night at similar establishments in Chicago, Santa Monica and San Francisco . But I think we raised the bar on this one. The Blue Cue is 12 years old and running strong.”
